

## **Domestic Violence Resource Centre** *Victoria*

The Domestic Violence Resource Centre Victoria (DVRCV) is the state-wide centre for information about family violence and child sexual assault. There are many ways DVRCV can assist your organisation.

### **Publications**

DVRCV produces a diverse range of publications, aimed at those working in the community sector, as well as survivors and their family and friends. In addition to pamphlets, booklets and discussion papers on numerous topics, we produce a free email newsletter, and *The Quarterly* journal which contains feature articles, forum reports, the latest research, upcoming events, and support group listings. Subscribe to both now, and be always up-to-date with family violence news.

### **Training**

DVRCV conducts a range of professional education and training, including accredited courses. We can enhance your organisation by increasing workers' understanding of family violence and improving their skills in supporting survivors. Check out our Training Calendar, or talk to us about tailoring a course to meet the specific needs of your workplace.

### **Library**

DVRCV has the most extensive specialist family violence library in Victoria. The library holds books, articles, kits and videos/dvds on family violence. Workers, students, and those affected by family violence can access the library for support materials and current research. Call or email to arrange an appointment with our librarian.

### **Websites**

DVRCV has won awards and international acclaim for its highly accessible websites containing extensive information regarding family violence, young people, and relationship issues.
